

When it comes to ending global poverty and hunger

**Dear Prime Minister,**

Canadian aid plays a key role in making the world a better place for everyone. It's what we aspire to be as Canadians—compassionate and generous.

Let's demonstrate these values and increase our support for the things we care about, such as ensuring everyone has enough food, helping those displaced by conflict, creating opportunities for women and girls to flourish, and enabling farmers and their communities to adapt to a changing climate.

I am proud that Canadian aid is making a difference, and I believe we can do more for the 815 million people who go to bed hungry.

As you decide how much Canada contributes toward ending global poverty, please remember that **I care.**
